DETAILED ACTION

Examiner acknowledges receipt of amendment, remarks and IDS filed 12/16/05. Claims 1-8, 10, 18 and 35-100 are pending.

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The CETPs of the prior art, Sikorski (WO 99/14204), are triazole derivative while the CETPs of the claimed invention are tetrahydroquinoline derivatives. Commonly assigned patent, US 6,197,796 to DeNinno et al. discloses and claims the tetrahydroquinoline compounds used in the composition of the instant claims. While the DeNinno reference claims compositions and use of the composition to treat certain diseased conditions such as the conditions recited in claim 39, the DeNinno reference does not use the polymers of the instant claims with the CETPs. Other commonly assigned patents such as 6140342, 6147090, 6147089, 6310075, 6140343, 6489478, 6906082 and 6586448 claim compounds of the type found in the claimed instant composition and compositions containing these compounds but the claimed compositions of these patents do not have the specific claimed polymers of the examined application. Thus, the pending claims are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
